EDUCATION

• Surendranagar University

Bachelor of Engineering in Information Technology (IT)

2021-Present CGPA: 8.34

EXPERIENCE

• Aspireit

June 2024-Present

Full Stack Developer Intern

Remote

- Key contributor to both frontend and backend development for an **AI-driven** project.
- Built a user-friendly and responsive interface that **enhances user experience**.
- Developed and integrated **robust backend** services for seamless client-server communication.
- Leveraged Git and GitHub for efficient version control and team collaboration.

SKILLS

• Programming Languages: C++, JavaScript

• Development Skills: Node.js, Express.js, React.js, Tailwind CSS, HTML, CSS, Redux Toolkit

• Database: MongoDB

• Core Skills: Object-Oriented Programming (OOP)

• Developer Tools: VS Code, Vercel, Render, Postman, MongoDB Compass, MongoDB Atlas, Git, GitHub

PROJECTS

• StudyCircle: 6 Live 7 Code

Technologies: Node.js, Express.js, React.js, MongoDB, Tailwind CSS, Cloudinary, Redux Toolkit

- StudyCircle is a **MERN** Stack **Ed-Tech** platform that enables users to create, consume, and rate educational content with proper **authentication** and **authorization**.
- Integrated Razorpay payment gateway for secure transactions during course enrollments and timely payouts to instructors, improving financial operations.
- Transformed course analytics and earnings tracking for instructors, resulting in a 40% increase in engagement and course optimization.
- Established a robust RESTful API for seamless communication between front-end and back-end components.
 Leveraged Cloudinary for efficient storage and management of media content.

• FoodCircle: Live Code

Technologies: React.js, Context API, Routing, Tailwind CSS

- FoodCircle is a fully responsive **Food Ordering** application. Ensuring a seamless user experience on all devices.
- Utilized the Context API to manage cart functionality, enabling real-time addition and removal of food items.
- Implemented advanced filtering options, enhancing user experience and contributing to a 50% increase in user engagement.
- Designed user-friendly login and signup pages to enhance user engagement.

• EasyShop: O Live C Code

Technologies: Redux Toolkit, React.js, Routing, Tailwind CSS

- EasyShop is an **E-Commerce** cart application designed to enhance the online shopping experience.
- Developed robust cart functionality, allowing users to efficiently add and remove items from their shopping carts.
- Leveraged **Redux Toolkit** for state management, ensuring seamless handling of item additions and removals within the shopping cart.
- Designed a dedicated cart page that displays all items added by the user, featuring **real-time** updates of the total price for improved user experience.

Courses and Certifications

• Web Development Course 🔗

Gained practical experience in building and deploying responsive web applications using MERN technology.

 $\rm July~2023$

• Data Structures and Algorithms Course 🔗

Developed strong problem-solving skills by mastering various data structures and algorithms.

July 2023
